

NOHR Engineering Company provides engineering, evaluation, and design services to industrial, agricultural, residential, commercial, insurance, manufacturing and industry clients.

NOHR investigates and reports on building, process, equipment, bin and silo condition failures, fires and explosions; farm, residential, commercial and industrial failures, damages and accidents, wind damages, failed equipment, structures and processes. When called, **NOHR** can be on site within a short period of time to begin work.

After failure and damage investigation and analysis, **NOHR** provides cause and origin opinion reports with conclusions and recommendations.

NOHR provides expert witness services, depositions and testimony.
